

AGRA SOL Micro Mix

Chelated Micronutrients

AGRA SOLS are concentrated minor element chelates for plant nutrition. AGRA SOLS are designed for foliar or ground application. AGRA SOLS are compatible with non-phosphorous liquid fertilizers. AGRA SOLS may be added to dry, granular fertilizer formulations.

Rates of Application

Citrus and Tree Crops

Apply 1 - 2 pounds of AGRA SOL MICRO MIX per acre in post bloom spray to control micronutrient deficiencies. Summer or dormant applications may be made using 1 - 2 pounds per acre.

Row Crops and Vegetables

Incorporate 1 - 4 pounds per acre into regular spray program as needed.

Ornamentals

Apply 1 - 2 pounds per 100 gallons of water.

ULV and Aerial Application

The above rates are acceptable for use in 5 - 15 gallons of water per acre.

Optimum rates of application will vary between crops and fields depending on soil type. For best results, follow soil test or plant analysis recommendations.

Mixing Instructions

Fill mix tank to one half with water. Next add AGRA SOL MICRO MIX and allow to dissolve totally before adding other materials. Premixing AGRA SOLS before adding spray to rigs is recommended where agitation is poor. Add desired amounts to partially filled spray tank with agitation. Keep agitated during spray operations.

WARNING: AGRA SOL Micro Mix is recommended for all crops where Boron (B) may be deficient, however, overapplication may result in serious injury to susceptible crops. The application of fertilizing materials containing Molybdenum (Mo) may result in forage crops containing levels of Molybdenum (Mo) which are toxic to ruminant animals.

CAUTION: KEEP OUT OF REACH OF CHILDREN

MAY BE HARMFUL IF SWALLOWED

In case of contact with eyes, flush with water. Contact physician if irritation persists. Dispose of container in accordance with local, state and federal regulations.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.

GUARANTEED ANALYSIS

Magnesium (Mg)	5.0%
5.0% Chelated Magnesium (Mg)	
Boron (B)	0.5%
Copper (Cu)	1.5%
1.5% Chelated Copper (Cu)	
Iron (Fe)	4.0%
4.0% Chelated Iron (Fe)	
Manganese (Mn)	4.0%
4.0% Chelated Manganese (Mn)	
Molybdenum (Mo)	0.1%
Zinc (Zn)	1.5%
1.5% Chelated Zinc (Zn)	

Derived from: Magnesium Lignosulfonate, Sodium Borate, Copper Lignosulfonate, Iron Lignosulfonate, Manganese Lignosulfonate, Sodium Molybdate, Zinc Lignosulfonate.

NET WEIGHT: 10 lbs. (4.5 kg.)
