

Brandt® Sodium Molybdate - Powder

Micronutrient Supplement

Guaranteed Analysis

Molybdenum (Mo)39%

Derived from sodium molybdate dihydrate. F76

Directions For Use

BRANDT SODIUM MOLYBDATE - POWDER is intended for use as an agricultural mineral. For the agronomic application rates suitable for your geographical area or the maximum allowable non-nutrient application rates per acre, consult a trained soil specialist or write to Brandt Consolidated, Inc. Rates may vary according to area, climate, and crop being treated.

WARNING: BRANDT SODIUM MOLYBDATE - POWDER may be recommended for a variety of crops, including forage and legume crops. Application of fertilizers containing molybdenum (Mo) may result in forage crops that contain levels of molybdenum that are toxic to ruminant animals. The proper use of soil and/or petiole test recommendations will minimize the risk of overapplication of molybdenum.
