DIRECTIONS FOR USE

BRANDT SUPER 7 is a non-ionic, low foam surfactant that enhances the activity and effectiveness of pesticides and foliar nutrients. BRANDT SUPER 7 provides more uniform coverage by decreasing surface tension of spray solutions, thus aiding in penetration. It may be used as an acidifying agent to lower pH of spray solutions, thus preventing alkaline hydrolysis of pesticides sensitive to high pH. BRANDT SUPER 7 may be used on agricultural, aquatic, forestry, turf and ornamental, industrial, structural and non-cropland sites. **NOT FOR AQUATIC USE IN WASHINGTON.**

Read and follow the precautions, restrictions and recommendations on the labels of pesticides used with BRANDT SUPER 7. Use according to the most restrictive label directions for each product in any tank mix.

COMPATIBILITY: BRANDT SUPER 7 is compatible with most pesticides. However, if the desired combination has not been previously used, a compatibility test is recommended.
