

Brandt Uptake Starter

Modified Humic Acid

Guaranteed Analysis

4-0-1

Total Nitrogen (N)	4.0%
4.0% Ammoniacal Nitrogen	
Soluble Potash (K ₂ O)	1.0%
Sulfur (S)	4.0%
4.0% Combined Sulfur	

Derived from ammonium sulfate and potassium hydroxide.

ALSO CONTAINS NONPLANT FOOD INGREDIENTS:

10% Humic acid derived from Leonardite ore. F76

General Information

BRANDT UPTAKE STARTER is a highly charged, modified humic acid material formulated for NPK fertilizer solutions. This highly charged humic acid offers superior compatibility with phosphate solutions and does not precipitate out of these solutions like traditional humate liquids. BRANDT UPTAKE STARTER is compatible with conventional NPK starters including, but not limited to: 11-37-0, 10-34-0, 3-18-18, 32-0-0, and 28-0-0.

Use Instructions

Add 1 - 4 pints of BRANDT UPTAKE STARTER per 5 - 10 gallons of liquid NPK fertilizer solution and mix thoroughly. Apply this mixture in accordance with standard NPK fertilizer practice.

Prior to adding BRANDT UPTAKE STARTER to NPK fertilizer solutions, test compatibility by jar testing at desired ratios prior to mixing.

Mixtures of BRANDT UPTAKE STARTER and NPK fertilizer solutions should be used within the same growing season.

Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the label.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
