

General Information

Amino Acid Complexed **PolyAmine Nut Mix** is manufactured and designed as a soil and foliar nutrient to prevent or correct trace element deficiencies that usually occur when tree nut crops are small and may limit crop growth and yields. **PolyAmine Nut Mix** is readily available and rapidly absorbed by the plant because of the natural complexing properties. It is designed for foliar, row or broadcast application. It is water soluble and non-toxic to tree nut crops when applied as directed.

Product Specifications

Amino Acid Complexed **PolyAmine Nut Mix** is a yield enhancing formulation that contains amino acid complexed micronutrients.

Guaranteed Analysis

Sulfur (S)	4.00%
Copper (Cu)	2.00%
<i>2.0% Complexed Copper</i>	
Manganese (Mn)	2.00%
<i>2.0% Complexed Manganese</i>	
Zinc (Zn)	3.00%
<i>3.0% Complexed Zinc</i>	

(Derived from Copper Sulfate Amino Acid Complex, Manganese Sulfate Amino Acid Complex and Zinc Sulfate Amino Acid Complex)

PRECAUTIONARY STATEMENTS

In all cases, it is recommended that a small scale test for compatibility be conducted before mixing a full batch.

CONDITION OF SALE

Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on this label when used in accordance with directions under normal conditions of use. Since weather, crop soil, and other conditions may vary, NAP and/or seller makes no warranty of any kind, expressed or implied, concerning the use of this product. The user assumes all risks of use of handling whether or not in accordance with directions or suggestions.

PolyAmine Nut Mix

An Amino Acid Complexed Micronutrient Package

Manufactured by
Northwest Agricultural Products, Inc.
P.O. Box 3453 - Pasco WA 99302
509 / 547-8234

Net Contents: 2.5 gallons
5.0 gallons

Weight per Gallon: 10.53 lbs.

SHAKE WELL BEFORE USING. DO NOT FREEZE.
CAUTION: KEEP OUT OF THE REACH OF CHILDREN
HARMFUL IF SWALLOWED

Directions for Use

Apply using a spray method in an adequate amount of water that will provide complete coverage of the plants. Use of a non-ionic wetting agent may improve spray coverage of certain hard to wet plants. Do Not Apply Undiluted.

PolyAmine Nut Mix can be included in a regular spray program on crops. Consult with your Certified Crop Advisor on compatibility with other spray materials. The rate of application will depend on the crop, stage of growth, and severity of deficiency. The maximum recommended rates are for mature, full sized plants. Reduce the rates proportionately when spraying smaller tree nut crops.

Recommendations

PolyAmine Nut Mix is especially recommended for **tree nut crops** though it may also be used on **field, row, vegetable, fruit, vine, ornamental** and **turf crops**.

SOIL APPLICATIONS

Mild Deficiency.....	20-32 oz./acre
Moderate Deficiency.....	32-64 oz./acre
Severe Deficiency.....	64-80 oz./acre

WATER OR IRRIGATION APPLICATIONS

Mild Deficiency.....	10-16 oz./acre
Moderate Deficiency.....	16-24 oz./acre
Severe Deficiency.....	24-42 oz./acre

FOLIAR APPLICATIONS

Mild Deficiency.....	6-12 oz./acre
Moderate Deficiency.....	12-24 oz./acre
Severe Deficiency.....	24-38 oz./acre

GROUND APPLICATIONS

Mix with 10-250 gallons water

AIR APPLICATIONS

Mix with 5-20 gallons water.
