Brandt[®] Loch Ness[®] SS

Treats 1 acre water 4-6 feet deep
Biodegradable
Non-Toxic

General Information

The use of BRANDT LOCH NESS SS adds a natural beauty to ponds, lakes and lagoons, aesthetically improving their appearance. When used as directed, this product will not stain or harm fish or wildlife.

BRANDT LOCH NESS SS is a *Bird Blocker* formulation designed to darken water sufficiently to protect against fish poaching in aquacultural environments.

When treating ponds, allow this product to fully disperse before fishing, swimming or irrigating.

Directions for Use

Apply at the rate of 1 quart per 1 surface acre of water 4-6 feet deep. If a deeper color is desired, use additional product.

After measuring the pond or lake, and calculating the amount needed, add approximately half that dosage to several parts of the lake or pond, to ensure even dispersion. After half of the dosage is incorporated, add the balance of the colorant until the desired color is achieved.

Precautionary Statements

Based on currently available data, this product is not classified as a hazardous substance. However, observe good industrial hygiene practices. Wear rubber gloves to protect hands from staining and eye protection when handling this product. Wash hands after handling.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Dispose of contents/container in accordance with local authority requirements.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
