

Brandt® Eclipse

For Black Layer Management

NONPLANT FOOD INGREDIENTS

Calcium silicate	51.0%
Activated carbon	4.0%
Blend of copolymers of polyethylene and polyether modified trisiloxanes	6.5%

General Information

BRANDT ECLIPSE may be applied at any time of the year as a preventative or curative treatment for Black Layer and to improve seed establishment when overseeding.

Rate Recommendations for Black Layer

To achieve best results, and expose Black Layer to this product, mechanical aeration (hollow tine, solid tine, slitting, etc.) is crucial.

Aerate or spike to a depth greater than the Black Layer. Apply BRANDT ECLIPSE at the recommended rate using conventional rotary or drop spreaders. Then use drag brushes or other appropriate method to drag as much of the product into the aeration holes as possible. Leave aeration holes open, or if necessary, topdress using appropriate sized material. Until recovered from Black Layer, do not over-irrigate, and refrain from using iron, sulfur or organic based products.

Curative Treatment: Broadcast at the rate of 3 Kg per 100 m², or approximately 11 bags per hectare, following recommended pre-application procedures as noted above. Irrigate lightly after application. Up to 4 annual treatments may be made.

Net Weight:
40 lb / 18.1 kg

Preventative Treatment: Broadcast at the rate of 1.5 Kg per 100 m², or approximately 5.5 bags per hectare, following recommended pre-application procedures as noted above. Irrigate lightly after application. Up to 8 annual treatments may be made.

Rate Recommendations for Seed Establishment

Scarify the area to be overseeded. Apply BRANDT ECLIPSE at the rate of 2 Kg per 100 m², and follow with normal overseeding practices.

Storage and Handling

Store in a cool dry location away from heat sources, or direct sunlight. Keep container tightly closed.

Do not apply when land is frozen, flooded or snow covered. Do not allow to contaminate surface water. Do not apply within 3 meters of any public or private water supply.

Wear eye and respiratory protection when handling this product to avoid inhalation or eye contact of dust. Use only in accordance with label.

CAUTION: KEEP OUT OF REACH OF CHILDREN

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
