

Brandt Big Foot[®] Tablets

BIG FOOT TABLETS are specifically designed to effectively mark small volume spray solutions such as backpack, pump-up, knapsack or other small application tanks. BIG FOOT TABLETS, in conjunction with a chemical application, will effectively indicate where a spray solution has been, particularly if drift has exposed the operator to potentially hazardous chemicals.

Directions for Use

Thoroughly dissolve 1 tablet to each 1-2 gallons of spray solution to be marked. Charge tank with half the water required, then add the the desired number of tablets and continue filling. Tablets should thoroughly dissolve on their own, however some agitation will speed the process.

CAUTION: Do not ingest. This product may cause irritation and/or staining if allowed to come in contact with skin or eyes. The use of gloves and protective goggles is recommended.
