

Manni-Plex[®] Mg

Foliar Magnesium Supplement

Misstof Groep 2 / Fertilizer Group 2
Reg. nr B 4297 Act / Wet 36/1947

Magnesium (Mg)40 g/kg

General Information

MANNI-PLEX Mg is designed for application to field, row, vegetable, fruit, tree, vine and ornamental crops for the prevention and correction of magnesium deficiency when used as part of a balanced fertility program.

Rate Recommendations

Field, Row, Vegetable, Fruit, Tree and Vine Crops:

Apply 2-5 litre per ha per application throughout the growing season. At least 3 applications are recommended. More frequent applications of 3,5 litre per ha may be needed to correct deficiencies once they occur. For pre-plant or sidedress applications, use 5-9 litre per ha.

Ornamental Crops: Apply 2-5 litre per 100 litre water. Cover foliage thoroughly to point of runoff.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.
