

# Brandt™ Manni-Plex® B Moly

N.P.K.: 5.0.0. + 3,3% B + 0,5% Mo

## Guaranteed Analysis 5-0-0

Total Nitrogen (N) .....	5.0%
5.0% Urea nitrogen	
Boron (B) .....	3.3%
3.3% Water soluble boron	
Molybdenum (Mo) .....	0.5%
0.5% Water soluble molybdenum	

Derived from urea, sodium borate and sodium molybdate.

## General Information

BRANDT MANNI-PLEX B MOLY is designed for application to all field, row, vegetable, fruit, tree and vine crops, and turf and ornamentals for the prevention of boron and molybdenum deficiencies when used as part of a balanced fertility program.

## Rate Recommendations

Apply 1-2 pints per acre by ground or air. Multiple applications are recommended for best results.

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil test or plant analysis recommendation.

## Mixing and Handling Instructions

Apply in a minimum of 10 gallons water per acre for ground spray equipment or 2 gallons water per acre for aerial application. BRANDT MANNI-PLEX B MOLY may also be applied via drip or sprinkler fertigation.

Put 1/3 to 2/3 of total required water volume in tank. Add adjuvants, fertilizers, and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of BRANDT MANNI-PLEX B MOLY and agitate until thoroughly mixed. Fill tank with remainder of water.

Caution: Check chemical mixture compatibility using a jar test prior to application. Be cautious when mixing BRANDT MANNI-PLEX B MOLY with phosphate solutions.

WARNING: BRANDT MANNI-PLEX B MOLY is recommended for all crops where boron may be deficient; however overapplication may result in serious injury to susceptible crops. The application of fertilizing materials containing molybdenum (Mo) may result in forage crops containing levels of molybdenum (Mo) which are toxic to ruminant animals.

## CAUTION: KEEP OUT OF REACH OF CHILDREN

**Warranty:** Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
