

Brandt® Premium Zinc 10%

Alkaline Chelated Micronutrient

5-0-0

Guaranteed Analysis

Total Nitrogen (N)	5.0%
5.0% Ammoniacal nitrogen	
Zinc (Zn)	10.0%
5.1% Chelated zinc	

Derived from ammonium hydroxide, zinc diammonium ethylenediaminetetraacetate, zinc citrate, zinc chloride and zinc sulfate. F76

General Information

BRANDT PREMIUM ZINC 10% can be used for economical correction of zinc deficiency of vegetables, row crops, deciduous trees and vines, citrus and avocados, and turf and ornamental plants. This product is formulated to be especially compatible with alkaline solutions (pH higher than 7.0). It is predominantly intended for soil applications but may also be foliarly applied.

Rate Recommendations

SOIL APPLICATION: BRANDT PREMIUM ZINC 10% may be applied to row crops at 1-12 quarts per acre or to tree crops at 1/3-3 quarts per tree, depending upon severity of zinc deficiency. Applications with nitrogen containing fertilizers may enhance results.

Fertigation: Apply the recommended amount of product in split applications one to two weeks apart throughout the growing season.

FOLIAR APPLICATION: Mix 1-2 quarts per 100 gallons diluent. Finished spray may be applied by ground sprayer or through overhead sprinkler systems equipped with anti-syphon or backcheck valves (to prevent contamination of water source by back flow).

Thorough coverage and wetting are needed for optimum foliar spray results. Immediate post-irrigation or post-rainfall applications give best foliar uptake. Avoid foliar applications of this product when plants are under moisture stress. Avoid foliar applications to deciduous tree crops during bloom.

Certain crop varieties may be sensitive to foliar applications of BRANDT PREMIUM ZINC 10%. Test applications to part of the crop are advisable to assess the potential for undesirable effects under specific conditions.

Net Contents: 5 gallons (18.9 liters)

Density: 10.4 lb/gal @ 68°F

Net Weight: 51.5 lb (23.3 kg)

26008BRN068

2016-02 (GHS)

Optimum rate of application will vary depending on soil properties (such as pH, organic matter content, texture), weather conditions, time of year, general crop health and crop species. For best results, follow soil or plant tissue test recommendation to monitor specific levels of micronutrients and maintain these levels for optimum plant growth.

Mixing and Handling Instructions

Put 1/3 to 2/3 of total required water volume in tank. Add adjuvants, other fertilizers and pesticides if desired and agitate until thoroughly mixed. Add recommended amount of BRANDT PREMIUM ZINC 10% and agitate until mixed. Fill tank with remainder of water and buffer to pH 6-6.5. Check chemical mixture compatibility using a jar test prior to application.

Information regarding the contents and levels of metals in this product is available on the Internet at <http://www.aapfco.org/metals.htm> Information about the components of this lot of fertilizer may be obtained by writing to Brandt Consolidated, Inc. and giving the lot number which is found on the label.

WARNING: Causes serious eye irritation. Causes skin irritation.

Precautionary Statements: Wear eye/face protection and protective gloves. Wash thoroughly after handling. **First Aid:** *If in eyes:* Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists, get medical attention. *If on skin:* Wash with plenty of water. Take off contaminated clothes. If skin irritation occurs, get medical attention.

Storage and Disposal: Do not contaminate water, food or feed by storage or disposal. Keep out of reach of children. Store away from incompatible materials. Store locked up. Dispose of contents/container in accordance with local requirements.

Warranty: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use; but neither this warranty nor any other warranty of merchantability or fitness of a particular product expressed or implied, extends to the use of this product contrary to label conditions, or under conditions not reasonably foreseeable to the seller; and buyer assumes the risk of any such use.
