

**Brandt® M.S.O.**

# Activator and Penetrant

BRANDT M.S.O. is a superior multi-component adjuvant formulated with modified vegetable oil concentrate. It was developed as a replacement for non-ionic surfactants and crop oil concentrates, as recommended on the pesticide label. BRANDT M.S.O. maximizes the performance of crop protection chemicals by improving penetration of the spray mix through the plant cuticle. BRANDT M.S.O. may be used on agricultural, forestry, vegetation management, and other non-crop sites.

## Benefits of BRANDT M.S.O.

- Superior wetting and penetrating properties
- Quality formulation for consistent emulsion
- Improves penetration of waxy cuticle
- Excellent crop tolerance

## Principle Functioning Agents

Modified vegetable (seed) oil, Alkyl phenol ethoxylate and Polysiloxane polyether copolymer . . . . .	98.1%
Constituents ineffective as spray adjuvants . . . . .	1.9%
<b>Total . . . . .</b>	<b>100.0%</b>

CA Reg. No. 48813-50004-AA

Rate Recommendations	Application Rate
For air and ground applications	
Defoliants, desiccants, herbicides	0.5-2 pt per acre
Fungicides, insecticides, miticides	0.5-1 pt per 100 gals of spray solution

For improved efficacy with all tank mixes, use at least 0.5 - 1 pt per acre when finished spraying volume is less than 20 gals per acre. For backpack or handheld sprayers, use 0.5 fl oz per gal of spray solution.

Always read and follow all label directions.
