

1. Identification

Product identifier	Manni-Plex Zn		
Other means of identification			
Product code	28119BRN		
Recommended use	Agricultural/ Horticultural Use- N	licronutrient Fe	ertilizer- Refer to product label.
Recommended restrictions	Refer to product label.		
Manufacturer/Importer/Supplier/I	Distributor information		
Manufacturer			
Company name Address	Brandt Consolidated, Inc. 2935 South Koke Mill Road Springfield, IL 62711 United States		
Telephone	Corporate Office	1-217-547-58	00
Website	www.brandt.co		
E-mail	msds@brandt.co		
Contact person Emergency phone number	EH&S / Regulatory Department CHEMTREC (24 hours):		
	USA, Canada, Puerto Rico Virgin Islands International Maritime	1-800-424-930 1-800-424-930 +1 (703) 527-3	00
2. Hazard(s) identification			
Physical hazards	Not classified.		
Health hazards	Serious eye damage/eye irritatio	on	Category 2A
	Specific target organ toxicity, sir	ngle exposure	Category 3 respiratory tract irritation
Environmental hazards	Hazardous to the aquatic environ hazard	nment, acute	Category 2
	Hazardous to the aquatic enviro long-term hazard	nment,	Category 2
OSHA defined hazards	Not classified.		
Label elements			
Signal word	Warning		
Hazard statement	Causes serious eye irritation. M aquatic life with long lasting effe		ratory irritation. Toxic to aquatic life. Toxic to
Precautionary statement			
Prevention			ly after handling. Use only outdoors or in a onment. Wear eye protection/face protection.
Response	cautiously with water for several	I minutes. Rem center/doctor if	p comfortable for breathing. If in eyes: Rinse hove contact lenses, if present and easy to do. you feel unwell. If eye irritation persists: Get
Storage	Store in a well-ventilated place.	Keep containe	r tightly closed. Store locked up.
Disposal	Dispose of contents/container in	accordance w	vith local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.		
Supplemental information	None.		

3. Composition/information on ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Zinc Nitrate		7779-88-6	20 - < 30*
Urea		57-13-6	< 1*
Other components below r	eportable levels		70 - < 80

Other components below reportable levels

*Designates that a specific chemical identity and/or percentage of composition has been withheld as a trade secret.

4. First-aid measures

Inhalation	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.
Skin contact	Wash off with soap and water. Get medical attention if irritation develops and persists.
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Ingestion	Rinse mouth. Get medical attention if symptoms occur.
Most important symptoms/effects, acute and delayed	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation.
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Keep victim under observation. Symptoms may be delayed.
General information	If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5. Fire-fighting measures

Suitable extinguishing media	Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	Move containers from fire area if you can do so without risk.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.
Methods and materials for	Prevent entry into waterways, sewer, basements or confined areas.
containment and cleaning up	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

7. Handling and storage Precautions for safe handling

Precautions for safe handling	Avoid breathing mist or vapor. Avoid contact with e adequate ventilation. Wear appropriate personal p environment. Observe good industrial hygiene pra	rotective equipmen	
Conditions for safe storage, including any incompatibilities	Store locked up. Store in original tightly closed cor (see Section 10 of the SDS).	ntainer. Store away	from incompatible materials
8. Exposure controls/pers	onal protection		
Occupational exposure limits US. AIHA Workplace Enviro Components	nmental Exposure Level (WEEL) Guides Type	Value	Form
Urea (CAS 57-13-6)	TWA	10 mg/m3	Total particulate.
Biological limit values	No biological exposure limits noted for the ingredie	ent(s).	
Appropriate engineering controls	Good general ventilation (typically 10 air changes should be matched to conditions. If applicable, use or other engineering controls to maintain airborne exposure limits have not been established, mainta eyewash station.	e process enclosure levels below recom	es, local exhaust ventilation, mended exposure limits. If
Individual protection measures,	such as personal protective equipment		
Eye/face protection	Chemical respirator with organic vapor cartridge a	nd full facepiece.	
Skin protection Hand protection	Wear appropriate chemical resistant gloves. Suital supplier.	ole gloves can be re	ecommended by the glove
Other	Wear suitable protective clothing.		
Respiratory protection	Chemical respirator with organic vapor cartridge a	nd full facepiece.	
Thermal hazards	Wear appropriate thermal protective clothing, when	n necessary.	
General hygiene considerations	Always observe good personal hygiene measures, and before eating, drinking, and/or smoking. Rout equipment to remove contaminants.		

9. Physical and chemical properties

o. i nysical and chemical p	hopenties
Appearance	Liquid.
Physical state	Liquid.
Form	Liquid.
Color	Colourless to light yellow.
Odor	faint sweet odor
Odor threshold	Not available.
рН	2 - 4
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Flash point	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	0.00001 hPa estimated
Vapor density	Not available.
Relative density	1.23 g/cm3 (typical)

Solubility(ies)	
Solubility (water)	100 %
Partition coefficient (n-octanol/water)	Not available.
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Oxidizing properties	Not oxidizing.
Percent volatile	71.77 % estimated
pH in aqueous solution	5 - 7 (10% Solution)
Pounds per gallon	10.3 lb/gal (typical)
Specific gravity	1.57 estimated
VOC	1.47 % estimated

10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents.
Hazardous decomposition products	No hazardous decomposition products are known.

11. Toxicological information

Information on likely routes of exposure

Inhalation	May cause irritation to the respiratory system. Prolonged inhalation may be harmful.
Skin contact	No adverse effects due to skin contact are expected.
Eye contact	Causes serious eye irritation.
Ingestion	Expected to be a low ingestion hazard.
Symptoms related to the physical, chemical and toxicological characteristics	Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. May cause respiratory irritation.

Information on toxicological effects

May cause respiratory irritation.

* Estimates for product may be based on additional component data not shown.						
Persistence and degradability	No data is available on the degradability of this product.					
Bioaccumulative potential						
Partition coefficient n-octanol / water (log Kow)						
Urea		-2.11				
Mobility in soil	No data available.					
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.					
13. Disposal considerations						
Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. Dispose of contents/container in accordance with local/regional/national/international regulations.					
Local disposal regulations	Dispose in accordance with all applicable regulations.					
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.					
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).					
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.					

14. Transport information

Packaging non bulk	203
Packaging bulk	241
IMDG Regulated Marin	ne Pollutant, Not DOT regulated in domestic (USA ground) transportation in package sizes les

IMDG Regulated Marine Pollutant. Not DOT regulated in domestic (USA ground) transportation in package sizes less than 4928 lbs (478 gallons); 2235 kg (1809 liters). The DOT transportation information above is for shipments with package sizes equal to or exceeding this value.

DOT Shipping Notes: 40 CFR 172.504(f)(9) For Class 9, a CLASS 9 placard is not required for domestic (USA ground) transportation, however shipments with packaging exceeding the Reportable Quantity (RQ) or bulk packaging must be marked with the appropriate identification number on a CLASS 9 placard, an orange panel, or a white square-on-point display configuration as required. Since the Class 9 placard is not required (although it may be used) the hazardous material endorsement is also not required on a Commercial Drivers License.
