

BRANDT® Inspray 90 Spreader/Activator

BRANDT INSPRAY 90 is a general purpose, low foam non-ionic spreader/activator that helps maximize the effectiveness of insecticide, herbicide (aquatic and terrestrial), fungicide, defoliant and desiccant applications. It is designed for quick wetting, uniform droplet distribution and increased spray retention on leaf and stem surfaces.

Key Benefits of BRANDT Inspray 90

- Incorporates the properties of a spreader and an activator to improve wetting, spreading, contact activity and penetration.
- Quick wetting and uniform droplet distribution

BRANDT Inspray 90 is An Approved Tank Mix Partner for XtendiMax® and FeXapan™ Herbicides

BRANDT INSPRAY 90 is an approved tank mix partner for XtendiMax with VaporGrip® Technology and FeXapan with VaporGrip Technology when it is used in conjunction with a Drift Reducing Adjuvant as specified by Monsanto® and DuPont® (such as BRANDT ONSITE). Adding BRANDT INSPRAY 90 to your spray program can increase spray droplet retention and enhance overall contact activity.

Principal Functioning Agents

Alkylarylpolyoxykane Ether, Glycol and Free Fatty Acids.....	90.0%
Constituents Ineffective as a Spray Adjuvant.....	10.0%
Total	100.0%

All ingredients are exempt from the requirements of a tolerance under 40 CFR 180.

Rate Recommendations

With herbicides, insecticides, fungicides, defoliants and desiccants: Add 1/2 to 4 pints per 100 gallons of water during mixing. For specific rates of surfactant, always refer to the pesticide manufacturer's label.

*Always refer to tank mix approval lists and follow full label instructions before application.
