

Advantage[®]

Innovation without boundaries[®]

Builds stronger, healthier and more beautiful golf and sports turf, lawns and landscapes, and ornamentals

ADVANTAGE is a patented liquid foliar fertilizer that builds healthy, vibrant turf and adds vigor to all plants; and supplies the right amount of N, K, B, Mn, Mo and Zn for optimal health and beauty.

Key Benefits of Using ADVANTAGE

PATENTED DEFINED CHEMISTRY

- Nutrients are readily available and stable; and will resist soil tie up
- Proprietary chemistry allows plants to quickly take in nutrients
- Emulsifiers coat foliage, which improves nutrient availability; reduces evaporation; and improves tank mix viscosity and suspension for “no fuss” application
- Wetting agents act as surface spreaders that improve foliar coverage and nutrient uptake
- Compatible with most fertilizers, pesticides and adjuvants

IMPROVES PLANT HEALTH AND TURGIDITY

- Provides rapid greening and maintains overall plant health
- Builds strong standing shoots
- Helps plants better withstand intense sunlight, heat, drought and traffic

ENVIRONMENTALLY FRIENDLY

- Contains no phosphates
- Perfects turf watering requirements and fertilizer needs
- Emulsifiers reduce run off and evaporation

Guaranteed Analysis

5-0-1

Total Nitrogen (N)	5.00%
1.00% Nitrate nitrogen	
4.00% Urea nitrogen	
Soluble Potash (K ₂ O)	1.00%
Calcium (Ca)	0.07%
Magnesium (Mg)	0.10%
Boron (B)	0.05%
Iron (Fe)	0.03%
0.03% Chelated iron	
Manganese (Mn)	0.75%
0.75% Chelated manganese	
Molybdenum (Mo)	0.001%
Zinc (Zn)	0.75%
0.75% Chelated zinc	

Derived from potassium nitrate, calcium nitrate, magnesium nitrate, urea, sodium borate, ferric ethylenediaminetetraacetate (EDTA), manganese EDTA, sodium molybdate and zinc EDTA. F2222

ALSO CONTAINS NON-PLANT FOOD INGREDIENTS:

Emulsifiers (glycosides)

Wetting agents (copolymer of glycerol and mixture of ethylene and propylene oxide)

Purpose: Emulsifiers enable suspension and add to viscosity; wetting agents are surface active spreaders that enable penetration.

Application Rates and Use

ADVANTAGE may be used on all turf including greens, tees, fairways, all sports turf, home lawns, and other grassy areas. Apply 3-6 fl oz per 1000 sq ft in sufficient water for thorough coverage. Apply before stress cycles begin and repeat at least twice a month. Allow at least 6 hours before/after irrigation event for maximum benefits. Do not apply near water, storm drains, or drainage ditches; or if heavy rain is expected.

ADVANTAGE may be applied with many other fertilizers, pesticides and adjuvants. For foliar application, apply 3-6 fl oz per 1000 sq ft in sufficient water (80-100 gallons). For optimal results, apply every 2 weeks during the growing season. See label for full application instructions and information. Always perform jar test before use.

Shake well before dispensing. Mix 3-6 oz of ADVANTAGE per 1000 sq ft with 1-2 gallons of water. One five gallon case treats 2.5-5 acres. Do not pour on roots. See label for full application instructions and information. Compatible with most adjuvants, fertilizers and pesticides, jar test when in doubt.
